

WaterStarter Internship Program 2018

WaterStart and STAR Water Group are jointly seeking to fill a volunteer/ unpaid intern position to be based in WaterStart's office at the Desert Research Institute in Las Vegas, NV. If you are currently in your last year of graduate study that includes environmental engineering, environmental science or civil engineering and are looking for practical experience in a work environment as part of your curriculum then this position may be right for you.

STAR Water is an Australian global watertech innovator in bio-filtration targeting urban, industrial, agricultural and mining water treatment. WaterStart is a cluster of global leaders in the implementation of water innovation and involves a joint venture between academic, public, and the private sector to create channels for water innovation to enter the United States. STAR Water, with funding assistance from WaterStart, is collaboratively working alongside faculty at the Desert Research Institute to develop recycled and sustainably procured bio-filters. As these filters become designed and manufactured, STAR is seeking the best new talent to join their Nevada-based operations.

In this position, the best suited applicant will:

- Assist with the implementation and commercialization of STAR Water's technology
- Acquire hands-on experience in overcoming the challenges of launching tech in the U.S.
- Attain perspectives and best-practices from for-profit and not-for-profit profit organizations
- Experience decision making processes and the drivers of innovation
- Support staff and customer needs

To learn more about the WaterStarter program please visit www.waterstart.com/be-a-waterstarter.

Please complete the below questionnaire and submit, along with a resume, to rebecca.shanahan@waterstart.com. An opportunity for employment within STAR Water will follow a 6-month unpaid internship.
